

*Our commitment towards
prosperity of customers
with Quality trust and Credibility*

Asian Crop Care

Regd Off : "ASIAN HOUSE", # 23-27-20, Rana Pratap street,
Satyanarayanapuram, VIJAYAWADA – 520 011. A.P.
Fac : D.No : 9-12, RS.No.188-1A, Donka Road, Surampalli – 521212.
Krishna Dist, A.P. Cell : +91-91000 55266

Our Marketing Branches :

TELANGANA : Khammam, Karimnagar, Bhainsa
KARNATAKA : Chintamani, Mannur Sugur, Ittigi (Ballary dist)
TAMILNADU : Tiruvannamalai, Tanjavur
ODISHA : Gunupur, Bargarh

For trade enquiries contact : 94401 58939 , 94900 15577.

ASIAN CROP CARE
(Formerly Asian Bio Chemicals)
is entered in 25th year of
successful journey
with committment, vision and trust.
We manufacture and
market wide range of
innovative products for
crop nutrition,
crop protection for Agricultural
and Horticultural crops.

ORGANIC IMMUNE ENHANCERS

SULFEX

Asian Sulfex is sulphur in liquid form helps in correcting productivity related problems and reduces the sulphur deficiency in the soil. It is very essential for Nitrogen metabolism which can be well absorbed by the plants. Asian Sulfex ensures bumper and healthy crop yields. It can be used as plant food only and not to be used as fertilizers, micronutrient or pesticide.

Crops : Mainly on fruit crops, horticultural crops, cotton, chillies, vegetables etc.

Dosage : 2 to 2.5ml in 1lt water .

MARK+

MARK+ is an innovative immune enhancer developed from natural alkaloids & enzymes. It involves in the metabolic activity of the plant and induces resistance to fight against fungal diseases such as blast, mildew, root rot etc. It also helps the plant in the growth mechanism resulting healthy and wealthy yields.

Recommendation : MARK+ can be used on all crops Cotton, Chillies, Vegetables, Paddy, Turmeric and all garden crops such as Mango, all Flower plants, Spices, Citrus etc.

Dosage : 250ml per one acre .

DHATHRI GOLD

It is an organic product contains Seaweed extracts and humates, which provides strength to root enhances water holding capacity of Soil. With stands climatic stress , increases rate of germination Leads to better yields.

Crops: Paddy,wheat, Maize, Pulses, sugar cane, vegetables and all other crops.

Dosage: 5-8 kg per acre

A-Cott

A-Cott is a combo pack. it develops self defense mechanism in plant to fight against various anti metabolites and improves plant harmonic activity and helps the crop for healthy growth and yields.

Crops : Cotton, Chillies , vegetables and all other crops.

Dosage: mix 2.5 ml of A cott and 2.5ml of A-cott plus in 1 lt of water.

SPINNER GOLD

Spinner Gold is an innovative combi pack contains powder derived from natural alkaloids and organic growth enhancer in liquid form. It develops defence mechanism in plant against pest attacks and leads for healthy & higher yields.

Dosage : Mix 1ml liquid 1gm powder in 1 lt of water

SENSOR

Sensor increase the enzyme activities in plant; thereby relieve plant from biotic and biotic stress caused due to various fungal diseases. It also nourishes plant with active nutrition management.

Crops: All crops

Dosage : 2.5gm / 1 litre of water.

Amez

It is an innovative product derived from various organic sources intended to use in Maize crop, Amez increases grain quality, induces the immune system of the plant and allow Stress free growth of the plant and leads to qualitative and quantitative crop yields.

Crops: Maize and can be used for any other grain crops.

Dosage: 4-5 kg per acre.

AVERT FBV

Avert FBV is a natural product derived from organic sources of vegetable origin and provides strength to the plant to fight against fungal , Bacterial and viral diseases and acts as preventive and curative action.

Crops Recommended : All crops

Dosage : Mix 1.5 to2 ml of AVERT FBV in 1 lt of water,

ORGANIC IMMUNE ENHANCERS

PESTICIDES & INSECTICIDES

KLICK GOLD

Klick Gold is an innovative combi pack contains powder derived from natural alkaloids and organic growth enhancer in liquid form. It develops defense mechanism in plant against pest attacks and leads for healthy & higher yields.

Dosage : Mix 1ml liquid 1gm powder dilute in 1 lt of water.

Vcare

It is organically enriched innovative product used for preventive and curative action on virus attack for all crops. It effectively works for healthy growth of the plant and improves quality of the crop yields.

Recommendations : It can be used on Chillies, vegetables, groundnut, fruit & flower crops.

Dosage : 1gm powder and 2.5 ml liquid in 1 lt of water.

ASIPRID

TECHNICAL NAME : ACETAMIPRID 20%SP

ASIPRID A new generation Nicotinoid (Pyridine) based insecticide. It is a highly effective systemic insecticide for the control of aphids, jassids and whiteflies in cotton crop and Vegetable Crops.

Dosage: 50/100gm per acre depending up on crop.

ARTOP 4GR

Technical name : CARTAP HYDRO CHLORIDE 4 % GR

Features : ARTOP an insecticide which gives effective control on insects pests through its contact, systemic and stomach poison action.

Target Pests : 4G effectively controls chewing & sucking insects of Paddy, Vegetables, Soyabean, Goundnut, Sunflower & sugarcane.

Dosage : 7.5–10 kg per acre mixing with 25–30 kg Fine sand for broadcasting.

MIRACLE

Miracle is natural product which can involved in the healthy growth of the plant and improves resistance against different pests in Maize, wheat, paddy and all other crops.

Dosage: 0.5ml to 1.0 ml in 1 lt of water

Mentor

Mentor is in powder form used to develop self resistance mechanism in plants against hoppers in paddy and other grain crops. It provides healthy growth and leads to higher yields. It promotes more tillers in grain crops .

Crops; Paddy, maize, wheat etc
Dosage: 0.5gm+0.5gms in 1lt of water

THIOX

TECHNICAL NAME : THIAMETHOXAM 25 % WG.

Features : Broad spectrum systemic insecticide of Neonicotinoid group. Having quick stomach and contact action on sucking pests with no residue accumulation.

Target Pests : It actively controls brown plant Hopper (BPH), White backed plant Hopper(WBPH), Green Leaf Hopper(GLH), Thrips Leaf folder and stem borer in paddy.

Dosage : 40–50 gms per acre in 200–250 lts of water.

YAMA

TECHNICAL NAME : Emamectin Benzoate 5% SG

YAMA is a non-systemic insecticide which penetrates leaf tissues by trans-laminar movement. It belongs to naturally occurring evermectin group of insecticide it acts directly on larval insects. The product is most effective when ingested by larvae.

The affected larva gets paralysed, stops feeding shortly thereafter and is killed within 2–4 days. Crop: Brinjal, Cabbage, Chick pea, Chilli, Cotton, Grapes, Okra, Pigeon pea, Tea.

BRILLIANT

Brilliant is in powder form used to develop self resistance mechanism in plants against hoppers in paddy and other grain crops. It provides healthy growth and leads to higher yields.

Crops: Paddy, maize, wheat etc
Dosage: 0.5 gms in 1 lt of water

NIHARIKA WONDER

Niharika Wonder is in powder form used to develop self resistance mechanism in plants against hoppers in paddy and other grain crops. It provides healthy growth and leads to higher yields.

Crops: Paddy, maize, wheat etc
Dosage: 0.5 gms in 1 lt of water

FIPROL 5%SC

TECHNICAL NAME : FIPRONIL 5%SC

Features : FIPROL is a modern insecticide highly effective insect control against a broad range of economically important pests.

Target Pests : Stem Borer, BPH, and different hoppers in Paddy. DBM In cabbage, Thrips, Aphids, Fruit Borers in Chillies, Aphid, Jassid, Thrips, White Fly, Boll Worms in cotton.

Dosage: 300–600 per acre depending up on the crop.

ASIMIDA

TECHNICAL NAME : IMIDACLOPRID 17.8 % SL

Features : It is a systemic insecticides of Neonicotinide group which control the sucking insects and termites very effectively.

Target Pests : Sucking pests like Aphids, Jassids, Thrips of Cotton, & Vegetables, white flies of Cotton and Hoppers.

Dosage : 50 –100 ml per acre in 160–200 lts of water. Crops : Cotton, Paddy / Rice, Chillies, Sugarcane, Mango, Sunflower, Okra, Groundnut, Tomato, Grapes.

BLOOMEX 15 G

It contains Nitrobenzene 15% an organic derivative, induces more flowering, prevents flower and fruit dropping. Helps the root to develop root hairs, improves plant metabolic activity, provides resistance to the crop intended to broadcast in the crop fields.

Crops : All crops
Dosage : 1–2 kg Bloomex 15G broadcasting mixing with Sand.

NANO SPREAD

Nano spread is a silicon based super spreading agent. Improves spreading area of the Spray on leaf surface. It is being used by mixing with any foliar sprays, such as pesticides Insecticides, bio organic products. It improves absorbing activity of the leaf and provides Well growth to the plant.

Crops: all crops
Dosage: 1 ml in 10 lt of water

ASICYPER-25

TECHNICAL NAME : CYPERMETHTHRIN 25%

Features : Powerful of Synthetic Pyrethroid group of insecticides. Its having systemic and contact action on insect-pest.

Target Pests : It effectively control bollworms, Thrips and Jassids on Cotton, Leaf folder of Rice etc.

Dosage : 200–400 ml. per acre with 160–240 ltrs of water.

ASIZOLE

TECHNICAL NAME : HEXACONAZOLE 5% EC.

Features : It is an excellent fungicide Highly effective systemic fungicide with protective and eradivative action. controls wide range of disease. Erysiphales (Powdery mildew) Ascomycetes (Scab) Basidiomycetes (Rust), Fungi imperfect (Wilt).

Crops : Rice, Wheat, Red gram, Peas, Groundnut, Coffee, Tea, Chilly, Tomato, Apple, Mango, Grapes.

MICRONUTRIENT FERTILISERS

ORGANIC IMMUNO ENHANCERS

ZENCON-S

Zinc Monohydrate (as Zn33%) is supplied with carrier material for broadcasting in the crop. It effectively supplies the Zinc to the soil.
Crops: Paddy, Wheat and other Cereal crops.

GLOWMIN

It is a mixture of micronutrients like Zinc, Ferrous and Manganese as per Formula-7 contains Zn,Fe,Mn,intended for soil application.
Crops: Paddy, Wheat and other Cereal crops.

TRICON

Tricon induces disease resistance management in the plants Due to the activity of the Tricon in the plant metabolic activities, plant will naturally gains the defensive mechanism against attacks of Pest and Insects. It helps the plant for healthy growth and leads for qualitative and quantitative yields.
Crops : It can be used on all crops.
Dosage: 1.5ml per 1 lt of waterdepending upon crop condition.

DIO plus

Dio plus is in liquid form formulated with Wild herbal extracts. It effectively protects from the attack of larval pests like Spodoptera and Heliothis and other Pests. It also Provides stress resistance to the Plant to enable to grow in healthy way. An Eco friendly product and safe to use.
Crops : Chillies, Cotton, Groundnut, Tomato and all other crops.
Dosage : 2 to 2.5 ml in 1 lt of water.

BOROSIL

Contains high quality Boron 20%. Boron Deficiency usually appears on the growth points of Roots, shoots and youngest leaves. Borosil Corrects the deficiency and helps in the healthy growth of the plant. Intended for Foliar Spray.
Crops: All crops
Dosage: 1–1.5 gms per 1 lt of water.

MAGIC PLUS

It contains Magnesium sulphate as 9.6%. It corrects the Magnesium deficiency of all crops more effectively and leads to bumper & healthy crop yields.
Crops : Cotton, Chillies, Palmolive gardens, vegetables and all other crops.

SARPANCH

Sarpanch is immune enhancer helps the plant to fight with all pests in all crops. Due to fast action of this, plant will develop disease resistance and stress management.
Crops : All crops
Dosage : 1.5 to 2 ml in 1 lt of water

MAANJA GOLD

It is a combination with two bottles and 1 pack, contains natural alkaloids, enzymes . Manja gold provides resistance against various pest, mites and sucking pest. And helps the plant for stress free growth. Increases yields of the crop.
Crops: All crops
Dosage : 1ml+1ml+1gm in1litre of water.

MAX plus FORMULA -4

It is a mixture of multi micro-nutrients as prescribed by the department. Max plus is available in Formula-4 with high quality micronutrients like Zn, Fe, Mn,Mg,Bo, Cu,Mo and others.
Crops: F-4 : Citrus Crops, and all other crops.

Asian CHELAZEN+

It contains high quality zinc 12% EDTA in chelated form so as to penetrate into the leaf pores fastly to cater the zinc requirements to the plant more effectively.
Crops : All crops.

MIGHTY

Mighty is an organic plant immune enhancer. It provides self defensive mechanism in the plants and effectively protects the plant from Mites, Aphids, Jassids, Thrips, Red mites and Milliebugs.
Crops: Chillies, Cotton, Groundnut, Tomato and all other crops.
Dosage:1.5 to 2.5 ml in 1 lt of water.

New KRISHAB

New Krishab is blend of natural alkaloids,Salts of Fatty acids and suitable adjuvants.It provides disease resistance management to the plant. In plant Metabolic activities,plant will naturally develops it provides self defensive mechanism against Thrips, Aphids, Jassids, Red mites and Mites .
Recommendation : It can be used on Chillies, Cotton, Tobacco, Vegetables, Tomato, Ground nut and all other crops.
Dosage : 2–2.5 ml of NewKrishab dissolve in 1 litre of water.

MAX plus FORMULA -6

It is a mixture of multi micronutrients in powder form as prescribed by the department. with high quality micronutrients like Zn, Fe, Mn,Mg,Bo and others.
Crops: F-6 for Cotton and Chillies and all other crops.

Asian HI-ZINC

It is a mixture of micronutrients with more Zinc, along with boron & essential elements intended for soil application.
Crops : Paddy, Wheat and other Cereal crops.

HOPPER X

HOPPER X is an organic plant immuno enhancer developed organically to fight against BPH in Paddy with its stress resistant mechanism it effectively works on sucking pest and BPH.
Crops: Paddy and other crops.
Dosage: 250 ml to 330 ml per one acre.

PRIME Plus

Prime plus is pure natural product derived from various herbs and wild oils. It is intended for effectively works to protect from sucking pests, insects and whitefly, Thrips, Jassids & Milliebugs.
Crops : Cotton, chillies and Vegetables all other crops.
Dosage: 1.5 – 2.5 ml per 1 lt of water.

ORGANIC IMMUNE ENHANCERS

MICRO NUTRIENTS FERTILISERS

Asian D6

Asian D6 is in liquid form formulated with alkaloids of phyto source. It effectively protects from the attack of larval pests like Spodoptera and Heliothis and all types of pests. It also provides stress resistance to the plant to enable to grow in healthy way. An eco friendly product and safe to use.

Crops : Chillies, Cotton, Groundnut, Tomato, Vegetables and all other crops.
Dosage : 0.5 ml to 1ml in 1lt. of water.

KLICK

Klick is blend of alkaloids of phyto source, available in powder form intended to enhance the Defence Mechanism in the Plants against Spodoptera, Helicoverpa, Heliothis and semi loopers by thickening the cell wall of the plant. It also enhances the resistance against the diseases caused by the pests and insects. An eco friendly product and safe to use.

Crops: Chillies, Cotton, Tomato Groundnut and all other crops.

Dosage: 1–1.5 gms per 1 lt of water

Asian S3

Asian S3 is an organic bio enhancer derived from phyto sources with multi action and fast action formula which can involve in healthy growth of the plant and improves resistance against all insect attack.

Crops : All vegetable crops , pulses, fruit crops, cotton, chillies, and other commercial and horticultural crops.

Dosage : 0.5 to 0.7ml in 1 lt of water

REAL-5

Real-5 is a Innovative product naturally derived from phyto sources which can involve in the healthy growth of the plant and also improves resistance against different pests in all crops.

Dosage : 0.5ml to 1.0ml in 1 liter of water.

Crops : Bengalgram, Cotton, Chillies, Groundnut, Tommato, Redgram, Brinjal and other vegetable crops.

MAX LIQUID

Formula 6

It is mixture of multi micronutrients in liquid form as prescribed by the Department. Max liquid consists of high quality micronutrients like Zn, Fe, Mn, Bo and fulfilled with Growth elements.

Crops : All crops such as Cotton, Chillies, Vegetables etc.

Ferramin

It contains High quality Ferrus 12% EDTA in chelated form so as to penetrate into the leaf pores fastly to cater ferrus requirement to the plant more effectively

Crops : all crops

ZENCON F

It contains Zinc sulphate monohydrate as Zn 33% and Sulphur intended for foliar spray for all crops. It corrects deficiency of zinc in all crops. Zinc plays vital role in the growth of the crops. This product very reactive and is absorbed quickly in the plant system.

Crops : all crops. Dosage : 1–2 gram in 1 lt water depending up on crop condition.

MASHOOR

COPPER SULPHATE 24%

IT contains high quality Copper sulphate intended for foliar spary for all crops. It corrects copper deficiency in the crops and play prominent role in the growth of the plant.

Crops: all crops

SPODA

Spoda is in liquid form formulated with Wild herbal extracts. It effectively protects from the attack of larval pests like Spodoptera and Heliothis and other Pests. It also Provides stress resistance to the Plant to enable to grow in healthy way.

An Eco friendly product and safe to use.

Crops : Chillies, Cotton, Groundnut, Tomato and all other crops.

Dosage : 2 ml in 1 lt of water.

SHOOT

Shoot is blend of various medicinal herbs to improve resistance against diseases caused by the Stemborrer and Leaf folder.

Crops : Paddy, Vegetables and Cotton.

Dosage : 1.5ml – 2 ml per 1 lt of water.

ORGANIC PRODUCTS

Cytozem+

It is Combination of seaweed extract, Organic metabolites and synthates.

- Increases biological activity.
- Increases crop yield.
- Enhances active growth of the plant.

Crops: All crops, garden & flower plants, fruit crops, spices and other all commercial crops.

Dosage : 1–2 ml per 1Lt of Water.

Meliaza-G

A specialised organic granules contains Botanical extracts and metabolites and synthates of organic origin. Protects the root from the insects, pest and improves soil fertility, increases water holding capacity, improves root growth, increases quality & quantity of the yields.

Crops : Paddy, Wheat, Maize, Sugar-cane and all other crops.

Dosage : 5 kg per acre.

BIO SCORE

Bio Score is pure natural product derived from various herbs and wild oils. It is intended for effectively works to protect from sucking pests, insects and mites, Thrips, Jassids & Milliebugs.

Crops : Cotton, chillies, Vegetables and all other crops.

Dosage: 1–1.5 ml per 1 lt of water.

COBRA-Z

Cobra-z is an innovative bio organic specialized product intended for healthy growth of the plant. It effectively protects from the attack of various pest.

Crops: Chillies, cotton. All vegetables crops and other commercial crops.

Dosage : 0.5 ml to be diluted in 1 lt of water.

BIOLIFE SP

An organic Powder contains Hydrolised proteins, organic synthates.

- Induces more flowering, Promotion of growth.
- Controls flower & fruit dropping.
- Enhances the metabolic activity of the plant.

- Improves anti-stress strength to plant
- Increases Quality & quantity of the yields.

Dosage : 1–1.5 gms per 1 lt of water

Crops : All crops.

BIOZEN- G

An unique organic granules contains metabolites and synthates of organic origin. Induces intake of all nutrients available in soil improves soil fertility, increases water holding capacity. Induces more tillering and grain bunches in Paddy, increases quality & quantity of the yields.

Crops : Paddy, Wheat, Maize, sugar-cane and all other crops.

Dosage : 8 to 10kg per acre.

ORGANIC PRODUCTS

ROOT CARE

It contains Humic acid 24%, which effectively works on the biological activities of the plant. Improves the intake of nutrients, gives more strength to root. It works as trace mineral transporter. Helps the plant to produce more yields.

Crops : All crops.

Dosage : 1–2 ml per 1 lt of water.

STYLE

Style is a high concentrated growth enhancer developed with Natural Alkaloids and Brassinoloids of Natural source. It gives strength to the plant and enhances the growth.

Crops : All crops

Dosage : 0.5 ml in 1 lt of water.

OXYGEN

Oxygen is in powder form, blend of Humic and Fulvic substances. Increases flowering density and size of the fruits. Increases new roots, leaves and promotes growth of the plant which leads high yield and abundant harvest.

It can be used as foliar spray, drip irrigation and seed treatment.

Dosage: foliar spray: 250g /acre, Drip : 1 kg/acre, Seed treatment: 50 gm/1 kg of seed

PLANTOZYME GOLD

Plantozyme Gold Contains Natural Hydrolyzed proteins, Vitamins, Enzymes. Promotes efficient utilization of absorbed native and applied Nutrients, improves overall growth of the plant / Crop. Induces more flowering with good vegetative growth leads to good crop quality ultimately higher yields.

Dosage : 1– 2 ml in 1Lt of water. 3–4 sprays depending upon crop condition.

Bloomex-N

It contains Nitrobenzene 20% and natural proteins of plant origin Induces profuse flowering and reduces from flower dropping. increases the size of fruits.

Crops : All crops.

Dosage : 2–2.5 ml per 1lt of water.

AGRIWET

It is a low form Non Ionic Spreader, sticker and Activator. For use as a wetting agent in dispersing Pesticides, Insecticides and fungicides.

Quick action and distribution of droplets on leaf surfaces. Increases the efficacy of Pesticides, Insecticides and fungicides.

Crops : All crops.

Dosage : 60–100 ml for 100 lts of water.

FERT

Fert is innovative product derived from organic sources for soil application. It is rich in organic and mineral substances which helps for plant growth and as soil conditioner, growth and yield enhancer.

Crops: Paddy, Maize, Wheat, Groundnut, pulses, potato, onion and all other crops

Dosage : 2– 4 kg per acre.

ASIAN GOLD

ASIAN GOLD is special soil conditioner. It contains natural Calcium, Magnesium and sulphur. It improves soil fertility and soil health. Also corrects the soil PH. Makes the soil fertile for better growth of the crop. Leads for higher yield of the crops.

Crops: All crops

Dosage: 50–200 kgs per acre depending up on crop and soil nature.

Triple plus

It is a combination of Humates, Fulvates and potassium in organic nature. Improves soil texture, fertility, water holding capacity.

Helps the plant root to penetrate in to the soil. Improves Metabolic activity And leads for healthy crop yields. Can be used as foliar spray, drenching, root dipping and drip irrigation .

Crops: Paddy, maize, wheat etc
Dosage : 0.5 gms in 1 lt of water

Avani Gold

Avani Gold is combination of Humic and fulvic acids in granular form of organic origin intended for broadcasting at Root zone of the crop/plant for better growth & yield. With stands in water stress condition and temperature fluctuations. Profound tillers in Paddy, thereby more yields. Increases rate of seed germination.

Crops : All crops.

Dosage : 4kg per acre depending upon the age of the crop.

Maximon-S

An organic Powder contains Hydrolysed proteins. Induces more flowering, Promotion of growth. Controls flower & fruit dropping. Enhances the metabolic activity of the plant. Improves anti-stress strength to the plant. Increases Quality & quantity of the yields.

Dosage : 1–1.5 gms per 1 lt of water
Crops : All crops.

Elite -XR

Comprises of the vital Amino acids, natural Brassinoloids and vitamins . Enhances resistance to moisture and environmental stress. Increases crop yields with high quality.

Usage: Dilute 0.5ml to 1ml in 1liter of water.
Recommendation : It is recommended on Cotton, Chillies, Vegetables, Groundnut, Fruit and Flower crops.

Maha Sakthi plus

Maha Shakthi plus is combination of organic derived Humic and fulvic acids with combination of proteins intended for healthy growth of the plant. Maha shakthi plus helps the plant deep penetration of primary and secondary root hairs in to soil it promotes qualitative and quantitative yields of the crop. for Drip irrigation, 3 to 5 lt depending up on the crop stage.

Recommended crops : Tomato, Brinjal, Carrot, Potato, Chillies, Cabbage, Bhendi, Leafy vegetables and other Vegetable crops and all fruit crops ..etc

CROPLIFE SP DRIP SPECIAL

An organic Powder intended for Drip irrigation for root strength, stem growth and for more flowering by enhancing metabolic activity. Controls flower & fruit dropping. Improves anti stress strength to plants Increases Quality & quantity of the yields.

Dosage 1 kg per acre for Drip irrigation.

AGROCINE 8000

A versatile anti bacterial agent to prevent from bacterial diseases on all crops.

Crops : All vegetable crops, fruit crops, Spices and all other crops.

Dosage : 20 grams per acre.

Dhanvanthari

An organic Powder contains Hydrolyzed proteins, organic synthates. Induces more flowering, Promotion of growth. Controls flower & fruit dropping.

Enhances the metabolic activity of the plant. Improves anti stress strength to plant * Increases Quality & quantity of the yields.

Dosage : 1–1.5 gms per 1 lt of water
Crops : All crops.
